STEVEN ANDERSON • JOIN FORCES WITH ASCD

Director of Instructional Technology
2012 ASCD Emerging Leader
North Carolina

I'm able to connect with educators from around the world through ASCD, especially through ASCD EDge and through some of those other resources, to help grow myself as a professional. And then at events like Leader to Leader, or events like the Annual Conference or the smaller Summer Conference or the Fall Conference, things like that where you see other people who have a passion for kids that you can connect with, make that relationship with. I haven't had that experience anywhere else.

It's had a true positive impact on me as a professional, but just as an educator, as somebody who wants to help teachers be better teachers, ASCD has really, I think, empowered me to do that.
