Cathy Vatterott

Is homework an essential component of rigorous schooling or a harmful practice that alienates and discourages a significant number of students? This 2nd edition examines both sides of the debate, updates the research, reflects the shift to standards-based and formative assessment, and acknowledges increasingly important “homework gap” issues based on shifting demographics. Numerous examples from teachers and schools that have revised their practices for homework illustrate the new paradigm in action, and readers will find useful new tools to start them on their own journey.

Project-Based Teaching: How to Create Rigorous and Engaging Learning Experiences
Suzie Boss with John Larmer

In Project Based Teaching, Suzie Boss and John Larmer build on the framework for gold standard project-based learning (PBL) originally presented in Setting the Standard for Project Based Learning and explore the seven practices integral to project-based teaching. For each practice, the authors present a wide range of practical strategies and include teachers’ reflections about their classroom experiences. This book and a related series of free videos provide a detailed look at what’s happening in PBL classrooms from the perspective of the project-based teacher.
