NEW! What We Know About Grading: What Works, What Doesn’t, and What’s Next

Thomas R. Guskey and Susan M. Brookhart

Grading is one of the most hotly debated topics in education, and grading practices themselves are largely based on tradition, instinct, and one’s personal history or philosophy. But, to be effective, grading policies and practices must be based on trustworthy research evidence. Enter this book: a review of 100-plus years of grading research as well as meaningful, actionable findings and strategies. This book is the jump-start all stakeholders need to build a better understanding of what works—and where to go from here.

NEW! Teacher’s Guide to Tackling Attendance Challenges

Jessica Sprick and Tricia Berg

Students can succeed in school—but they must be in school to do so. Addressing absenteeism is as important as addressing problematic behavior and academic difficulties in the classroom. To address the issue of chronic absenteeism—that is, missing 10 percent of school days for any reason—educators must begin to move away from a model of reliance on reactive and punitive approaches and toward one that is preventive and positive. Teacher’s Guide to Tackling Attendance Challenges provides teachers with resources they need to build a strong classroom-based initiative to improve the attendance of all students.

NEW! What We Say and How We Say It Matter: Teacher Talk That Improves Student Learning and Behavior

Mike Anderson

We all want our students to feel safe, collaborate well with others, feel ownership for their learning, and be joyfully engaged in their work. Nevertheless, many teachers end up using language patterns that undermine these goals. What teachers say to students—when they praise or discipline, give directions or ask questions, and introduce concepts or share stories—affects student learning and behavior. Many examples in What We Say and How We Say It Matter will help teachers examine their language habits and intentionally improve their classroom practice so their language matches and supports their goals.
