<td>The Power of Place: Authentic Learning Through Place-Based Education</td>
<td>Tom Vander Ark, Emily Liebtag, and Nate McClennen</td>
<td>&quot;Place: it’s where we’re from; it’s where we’re going. . . . It asks for our attention and care. If we pay attention, place has much to teach us.&quot; With this belief as a foundation, The Power of Place offers a compelling case for making communities the locus of learning for students of all ages and backgrounds. Dispelling the notion that place-based education is an approach limited to those who can afford it, the authors describe how schools in diverse contexts—urban and rural, public and private—have adopted place-based programs as a way to better engage students and attain three important goals of education: student agency, equity, and community.</td>

<tr>
<td>The Principal Reboot: Eight Ways to Revitalize Your School Leadership</td>
<td>Jen Schwanke</td>
<td>Today’s school principals face unprecedented challenges that can overwhelm even the most dedicated among them. What can they do when their initial enthusiasm for the job begins to deflate, when the demands of the job seem to outnumber the rewards? How can they regain the energy that propelled them early in their career? The Principal Reboot answers these questions with specific advice on how to reignite passion in addressing the many aspects of the principalship, including strengthening relationships with staff, students, and community; leading renewed efforts to improve instruction; using data effectively; and more.</td>

<tr>
<td>Teaching to Empower: Taking Action to Foster Student Agency, Self-Confidence, and Collaboration</td>
<td>Debbie Zacarian and Michael Silverstone</td>
<td>We want our students to master academic standards, and we want them to find meaning and satisfaction in their lives. Achieving these goals requires a concerted focus on the social-emotional skills that empower students in and beyond the classroom. In Teaching to Empower, Debbie Zacarian and Michael Silverstone explore what an empowered student looks like in contemporary schools and show you how to foster an inclusive culture of agency, self-confidence, and collaboration that will give each of your students the tools to become an active learner, thoughtful community member, and engaged global citizen.</td>

Students at the Center: Personalized Learning with Habits of Mind
Bena Kallick and Allison Zmuda
Learn about a transformative model of personalization that asks students to employ the set of dispositions for engagement known as the habits of mind. The authors share the perspectives of educators engaged in this work and provide tools for adjusting classroom practices to facilitate learning that is dynamic, sometimes messy, and always meaningful.

Tasks Before Apps: Designing Rigorous Learning in a Tech-Rich Classroom
Monica Burns
Content-hosting websites, videoconferencing apps, grade- or subject-focused social media accounts: with such a dizzying array of mechanical and virtual help at our disposal, it can be a challenge for educators to know where to even start. Monica Burns shares strategies, tools, and insights that teachers can use to effectively incorporate technology in the classroom.

Five Myths About Classroom Technology: How do we integrate digital tools to truly enhance learning?
Matt Renwick
This book debunks five common myths about technology and helps you consider how to fund and manage devices and create a supportive schoolwide program. Matt Renwick explains how you can assess and respond to your students’ technology needs and why you and your school cannot afford to keep students from using technology in their education.

## BEST BOOKS ON DEVELOPING STUDENTS' CRITICAL THINKING AND PROBLEM-SOLVING SKILLS

### NEW!

**Teaching for Deeper Learning: Tools to Engage Students in Meaning Making**
Jay McGirt and Harvey F. Silver

How can we encourage students to go beyond a superficial level of knowledge and prepare them for deeper challenges in school and beyond? In *Teaching for Deeper Learning*, the authors propose a solution: teaching students to make meaning for themselves. They highlight seven higher-order thinking skills that facilitate students’ acquisition of information for greater retention, retrieval, and transfer.

### What If? Building Students’ Problem-Solving Skills Through Complex Challenges
Ronald Beghetto

According to educator and creativity expert Ronald A. Beghetto, the best way to unleash students’ problem solving and creativity—and thus prepare them to face real-world problems—is to incorporate complex challenges that teach students to respond productively to uncertainty.
