101 Strategies to Make Academic Vocabulary Stick

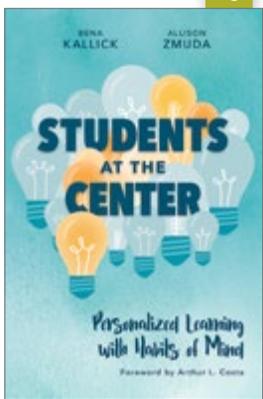

Marilee Sprenger

Veteran educator Marilee Sprenger explains how to teach the essential, high-frequency words that appear in academic contexts—and reverse the disadvantages of what she calls “word poverty.” Drawing on research

and experience, Sprenger provides a rich array of engaging strategies to help educators across all content areas and grade levels not only teach students a large quantity of words but also ensure that they know these words well. This comprehensive resource has everything you need to help your students profoundly expand their vocabulary, enabling them to speak, read, and write with greater understanding and confidence.

New!
Students at the Center: Personalized Learning with Habits of Mind

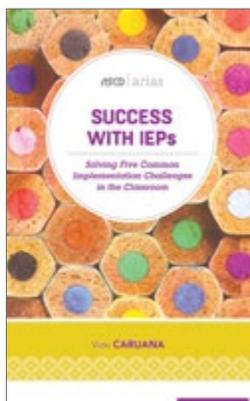

Bena Kallick and Allison Zmuda

If you agree that educators’ most important work is to help students develop the intellectual and social strength of character necessary to live well in the world, then go no further than this comprehensive guide that shows educators how

to increase the say students have in their own learning. Based on their exciting work in the field, the authors map out a transformative model of personalization that puts students at the center and teaches them to employ the set of dispositions for engagement and learning known as the Habits of Mind.

New!
Success with IEPs: Solving five common implementation challenges in the classroom

Vicki Caruana

For the many teachers uncertain of their ability to meet the needs of students with IEPs, this brief yet compelling guide is a great place to begin learning about the IEP process. The author provides teachers with practical, research-based advice and solutions to

five of the most common challenges they face with IEPs:

- Understanding the full scope of their role
- Doing the critical prep work for IEP meetings
- Offering modifications and accommodations
- Contributing to the IEP team
- Monitoring student progress

Learn about common misconceptions on how to work with students with disabilities and insights, tips, and strategies to help teachers to fine-tune their practice to better meet each child’s unique needs. This publication includes practical features, such as IEP snapshot samples and an accommodations checklist, that are ideal for the busy teacher.

Best Books on TEACHING 21ST CENTURY SKILLS

Teaching the 4Cs with Technology: How do I use 21st century tools to teach 21st century skills?

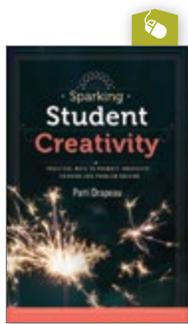

Stephanie Smith Budhai and Laura McLaughlin Taddei

Enhance the ways you teach the “4Cs”—critical thinking, communication, collaboration, and creativity—with technology by using instructional strategies described in this book. An in-depth discussion of how

technology can promote the learning of the 4Cs and numerous practical strategies to help support the development of each sub-skill are included.
