## The Power of the Adolescent Brain: Strategies for Teaching Middle and High School Students

Thomas Armstrong

Adolescents are called moody, reckless, impractical, insecure, and distracted. However, they also possess insight, passion, idealism, sensitivity, and creativity. Award-winning author Thomas Armstrong looks at the teenage brain

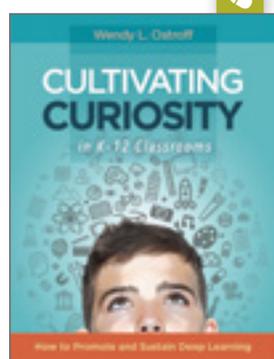

from an empathetic, strength-based perspective—and describes how educators can make the most of their students' potential.

Grounded in current neurological research, this book explains how the adolescent brain works and proposes eight instructional elements to

- Help students develop the ability to think.
- Make healthy choices.
- Regulate their emotions.
- Handle social conflict.
- Consolidate their identities.
- Learn enough about the world to move into adulthood with dignity and grace.

## Cultivating Curiosity in K-12 Classrooms: How to Promote and Sustain Deep Learning

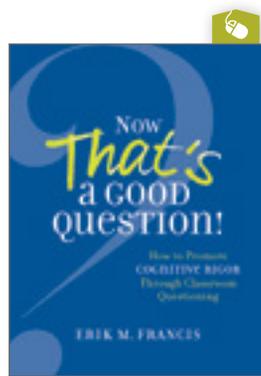

Wendy L. Ostroff

*Cultivating Curiosity in K-12 Classrooms* describes how teachers can create a structured, student-centered environment that allows for openness and surprise—where inquiry guides authentic learning. Author and award-winning educator Wendy L. Ostroff shows how to foster student curios-

ity through exploration, novelty, and play; questioning and critical thinking; and experimenting and problem solving. Techniques to try, scaffolding advice, and relevant research from neuroscience and psychology are included. This book will help you harness the powerful drive in all learners—the drive to know, understand, and experience the world in a meaningful way.

## Now That's a Good Question! How to Promote Cognitive Rigor Through Classroom Questioning

Erik M. Francis

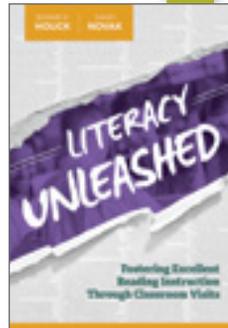

Asking the right question can challenge your students to think deeply and share their perspectives.

Questioning can provide the proper scaffolding to deepen student thinking, understanding, and application of knowledge. In this book, you'll learn

- Techniques for using questioning to extend and evaluate student learning experiences.
- Eight different kinds of questions that challenge students to demonstrate higher-order thinking and communicate depth of knowledge.
- How to rephrase the performance objectives of college and career-readiness standards into questions that engage and challenge students.
