

Teach to Lead envisions a world in which teachers are valued as the foremost experts in instruction and, as such, are leaders in developing, informing, and implementing education policy and practice to steer systemic improvements to benefit student learning.

3 OBJECTIVES

1

Increase pathways and opportunities for teachers to exercise leadership

2

Elevate teacher voice to inform and develop policy and practice

3

Expand existing efforts and create models to steer systemic improvements to benefit student learning

“This was an amazing experience. With the right people at the table, possibilities are endless. We needed this time and space and the opportunity to be surrounded by like-minded and passionate educators. Events like this are making a difference in the lives of children across the country.”
